Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 08.11.2022

Version number 1

Revision: 03.03.2022

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1 Product identifier

- · Trade name: Expanding Foam Hand Held B3 Rated (JF750B3H)
- 1.2 Relevant identified uses of the substance or mixture and uses advised against Assembly foam
- · Application of the substance / the mixture Construction chemicals
- \cdot 1.3 Details of the supplier of the safety data sheet

· Manufacturer/Supplier:

JCP Construction Products

- Unit 14 Teddington Business Park,
- Station Rd., Teddington, TW11 9BQ
- Tel: +44 208 943 1800 Fax: +44 208 943 1140

Web: www.jcpfixings.co.uk

- Further information obtainable from: jcpenquiries@owlett-jaton.com
- 1.4 Emergency telephone number: +44 (0)208 943 1800 8.30am-5.00pm Monday to Friday

SECTION 2: Hazards identification
2.1 Classification of the substance or mixture
Classification according to Regulation (EC) No

· Classification according to Regulation (EC) No 1272/2	2008

GHS0	2 flame	
Aerosol 1	H222-H2	229 Extremely flammable aerosol. Pressurised container: May burst if heated.
GHS0	8 health ha	zard
Resp. Sens. 1	H334	May cause allergy or asthma symptoms or breathing difficulties if inhaled.
Carc. 2	H351	Suspected of causing cancer.
STOT RE 2	H373	May cause damage to organs through prolonged or repeated exposure.
Acute Tox. 4 Skin Irrit. 2 Eye Irrit. 2 Skin Sens. 1 STOT SE 3	H332 H315 H319 H317 H335	Harmful if inhaled. Causes skin irritation. Causes serious eye irritation. May cause an allergic skin reaction. May cause respiratory irritation.
Lact.	H362	May cause harm to breast-fed children.
Aquatic Chronic	4 H413	May cause long lasting harmful effects to aquatic life.
		aration with attributed H413 phrase, taking into account the content C14-C17 ade on the basis of acute toxicology tests; FEICA Position Paper 17.03.2014.
-	ording to	Regulation (EC) No 1272/2008

The product is classified and labelled according to the GB CLP regulation.

Version number 1

· Additional information: For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First aid measures

· 4.1 Description of first aid measures

· After inhalation:

Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.

After skin contact:

Remove uncured foam using a piece of cloth and an unagressive solvent, e.g. ethanol. Wash your hands and the cleaned skin surface using soapy water. Cured foam can be removed mechanically with the use of a brush, soap and plenty of water. Use protective cream after skin surface has been cleaned.

• After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

After swallowing:

Do not induce vomiting; call for medical help immediately. Rinse out mouth and then drink plenty of water.

- 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.
- 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available.

SECTION 5: Firefighting measures

· 5.1 Extinguishing media

Suitable extinguishing agents:

Carbon dioxide.

Fire-extinguishing powder.

Foam. Water spray.

Use fire extinguishing methods suitable to surrounding conditions.

· For safety reasons unsuitable extinguishing agents: Water with full jet.

• 5.2 Special hazards arising from the substance or mixture

Can form explosive gas-air mixtures.

Formation of toxic gases is possible during heating or in case of fire.

(Contd. on page 4)

Revision: 03.03.2022

Safety data sheet

according to 1907/2006/EC, Article 31

Trade name: Expanding Foam Hand Held B3 Rated (JF750B3H)

· 5.3 Advice for firefighters

· Protective equipment:

Wear fully protective suit. Wear self-contained respiratory protective device.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures Keep away from ignition sources.
Wear protective clothing.
Ensure adequate ventilation.
6.2 Environmental precautions:

Inform respective authorities in case of seepage into water course or sewage system. Do not allow to enter sewers / surface or ground water.

• 6.3 Methods and material for containment and cleaning up: Uncured foam adheres easily, hence it should be removed with caution. Remove instantly using a piece of cloth and solvents, e.g. acetone, alcohol. Remove cured foam mechanically. Dispose contaminated material as waste according to item 13. Ensure adequate ventilation.

- **6.4 Reference to other sections** See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

SECTION 7: Handling and storage

 7.1 Precautions for safe handling Open and handle receptacle with care. Do not pierce or burn even after use. Use only as directed on the label. Do not mix with any other chemical products. Ensure good ventilation / exhaustion at the workplace. Information about fire - and explosion protection: Do not spray onto a naked flame or any incandescent material. Keep ignition sources away - Do not smoke. Protect against electrostatic charges. Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50°C, i.e. electric lights. Do not pierce or burn, even after use. 7.2 Conditions for safe storage, including any incompatibilities · Storage: · Requirements to be met by storerooms and receptacles: This product is subject to regulations governing the storage of highly flammable aerosol products. Storage rooms should be equipped with heat and smoke detectors. Electrical equipment should be explosion-proof. Store in a cool location. Observe official regulations on storing packagings with pressurised containers. Information about storage in one common storage facility: Do not store together with acids. Do not store together with alkalis (caustic solutions). Store away from reducing agents. Store away from oxidising agents. Store away from foodstuffs. Store away from plastic, rubber, aluminum, light-metals. Further information about storage conditions: Store receptacle in a well ventilated area. Store in vertical position in closed original containers. Store at temperature from +5°C to +30°C. Protect from frost. Store under lock and key and out of the reach of children. Protect from heat and direct sunlight. · 7.3 Specific end use(s) No further relevant information available. GB

Revision: 03.03.2022

Safety data sheet

according to 1907/2006/EC, Article 31

Trade name: Expanding Foam Hand Held B3 Rated (JF750B3H)

Do not inhale gases / fumes / aerosols.

· Respiratory protection:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

· Hand protection

Protective gloves

EN 374

The glove material has to be impermeable and resistant to the product / the substance / the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Material of gloves

Polyethylene gloves.

Recommended thickness of the material: ≥ 0.02 mm.

The selection of the suitable gloves does not only depend on the material, but also on further marks of guality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

· Penetration time of glove material

Short-term contact ≥10 min (EN 374)

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye/face protection

Tightly sealed goggles

EN 166

Body protection: Protective work clothing.

SECTION 10: Stability and reactivity

· 10.1 Reactivity No further relevant information available.

- · 10.2 Chemical stability
- · Thermal decomposition / conditions to be avoided:
- No decomposition if used according to specifications.
- · 10.3 Possibility of hazardous reactions No dangerous reactions known.
- · 10.4 Conditions to avoid No further relevant information available.
- · 10.5 Incompatible materials:
- Strongly reacts with water and other substances containing an active hydrogen atom.
- · 10.6 Hazardous decomposition products: No dangerous decomposition products known.

SECTION 11: Toxicological information

· 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

- Acute toxicity
- Harmful if inhaled.

CAS: 9016-87-9 diphenylmethanediisocyanate, isomers and homologues

- Oral LD50 >10,000 mg/kg (rat) (OECD401)
- Dermal LD50 >9,400 mg/kg (rabbit) (OECD402)

Inhalative LC50/4h 1.5 mg/l (ATE)

CAS: 85535-85-9 chlorinated paraffins, C14-17

- Dermal LD50 4,000 mg/kg (rat)
- Inhalative LC50 >3,300 mg/l (rat)

· Skin corrosion/irritation

- Causes skin irritation.
- · Serious eye damage/irritation
- Causes serious eye irritation.

· Respiratory or skin sensitisation

May cause allergy or asthma symptoms or breathing difficulties if inhaled.

- May cause an allergic skin reaction.
- · Germ cell mutagenicity Based on available data, the classification criteria are not met.

(Contd. on page 8)

⁻ GB

• 12.2 Persistence and degradability Not biodegradable.					
• 12.3 Bioaccumulative potential Does not accumulate in organisms.					
 12.4 Mobility in soil No further relevant information available. 12.5 Results of PBT and vPvB assessment 					
· PBT:					
CAS: 85535-85-9 chlorinated paraffins, C14-17					
· vPvB:					
CAS: 85535-85-9 chlorinated paraffins, C14-17					
· 12.6 Endocrine disrupting properties					
The product does not contain substances with endocrine disrupting properties.					
12.7 Other adverse effects					
 Additional ecological information: General notes: 					
Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water.					
Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.					

SECTION 13: Disposal considerations

· 13.1 Waste treatment methods

· Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

- Dispose of in a safe manner in accordance with local / national regulations.
- Do not allow to enter surface or ground water.

Assigning a code from the waste catalogue depends on the sector, in which the user operates, as well as on arrangements made between the waste generator and a competent environment protection department.

· Europea	n waste catalogue
